

**Top 10 Downloaded Papers**  
(articles published in the last five years)

|   |   |
|---|---|
| 1 | <a href="#"><u><b>Oxidative stress, inflammation, and cancer: How are they linked?</b></u></a> Free Radical Biology and Medicine, Volume 49, Issue 11, December 2010, Pages 1603-1616                                   |
| 2 | <a href="#"><u><b>Assessment of Antioxidant Capacity in vitro and in vivo</b></u></a> Free Radical Biology and Medicine, Volume 49, Issue 4, August 2010, Pages 503-515   |
| 3 | <a href="#"><u><b>Quantifying cellular oxidative stress by dichlorofluorescein assay using microplate reader1</b></u></a> Free Radical Biology and Medicine, Volume 27, Issue 5-6, September 1999, Pages 612-616        |
| 4 | <a href="#"><u><b>Reactive oxygen species, cellular redox systems, and apoptosis</b></u></a> Free Radical Biology and Medicine, Volume 48, Issue 6, March 2010, Pages 749-762   |
| 5 | <a href="#"><u><b>Structure-antioxidant activity relationships of flavonoids and phenolic acids</b></u></a> Free Radical Biology and Medicine, Volume 20, Issue 7, January 1996, Pages 933-956                          |
| 6 | <a href="#"><u><b>Flavonoids: antioxidants or signalling molecules?</b></u></a> Free Radical Biology and Medicine, Volume 36, Issue 7, April 2004, Pages 838-849  |
| 7 | <a href="#"><u><b>Roles of dioxins and heavy metals in cancer and neurological diseases using ROS-mediated mechanisms</b></u></a> Free Radical Biology and Medicine, Volume 49, Issue 9, November 2010, Pages 1328-1341 |

|    |  |
|----|--|
| 8  | <a href="#"><u><b>Redox environment of the cell as viewed through the redox state of the glutathione disulfide/glutathione couple</b></u></a> Free Radical Biology and Medicine, Volume 30, Issue 11, June 2001, Pages 1191-1212 |
| 9  | <a href="#"><u><b>The cell cycle is a redox cycle: Linking phase-specific targets to cell fate</b></u></a> Free Radical Biology and Medicine, Volume 47, Issue 9, November 2009, Pages 1282-1293                                 |
| 10 | <a href="#"><u><b>Linking oxidative stress to inflammation: Toll-like receptors</b></u></a> Free Radical Biology and Medicine, Volume 48, Issue 9, May 2010, Pages 1121-1132   |
